VISE-GRIP[®] Tools

General Catalog

INSIST ON **WISE-GRIP®** LOCKING HAND TOOLS

Wire-Cutter

WISE-GRIP tools with wire cutters will handle anything up to a 1/4" bolt. One bite will cut smaller wires—progressive bites will cut through the big ones.

Locking Action

WISE-GRIP tools lock to the work, leaving both hands free. Properly adjusted, and locked to the work, WISE-GRIP tools won't slip. The powerful jaws and teeth hold on tight.

Easy-Release

Every WISE-GRIP tool has an easy-release trigger. Just press, and the jaws snap open—ready to tackle the next job.

Controlled Power

WISE-GRIP tools *mean* power. A simple hand squeeze can put one ton of controlled pressure between the jaws. WISE-GRIP tools make every job easier. They're the most versatile tools you can own.

Quality Materials

Only the finest high-grade alloy steels are used in WISE-GRIP tools. Each tool is heat-treated for maximum toughness and durability, and each has a bright nickel-plated finish. WISE-GRIP tools are designed to give years of trouble-free service.

Micro-Adjustment

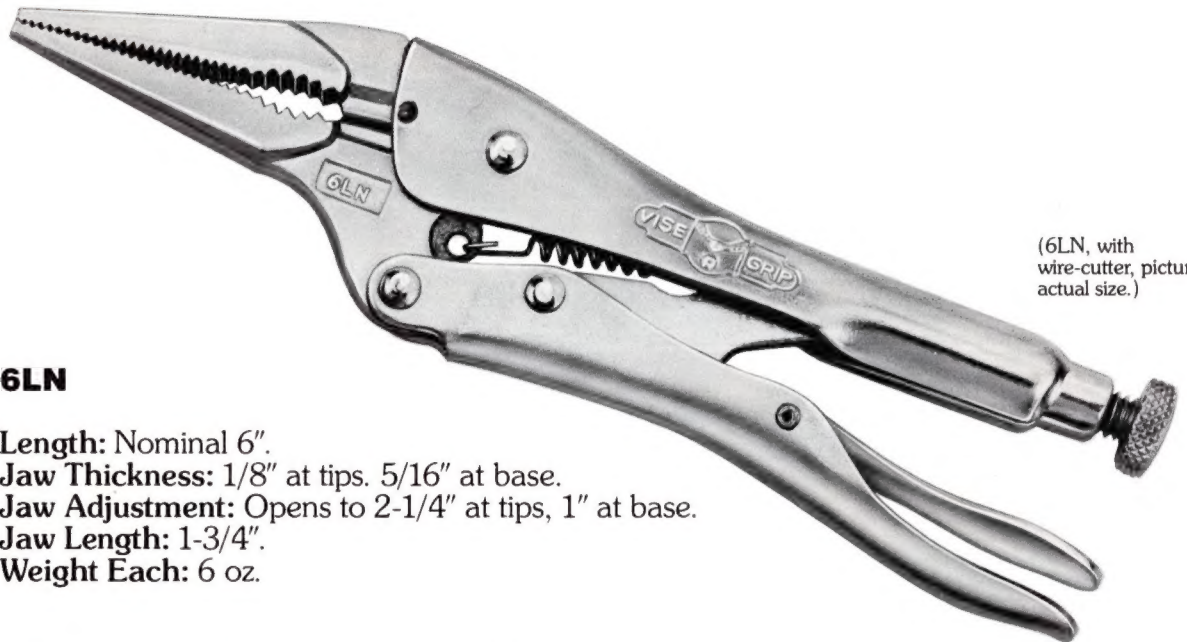

WISE-GRIP tools can be adjusted for pliers action, or to lock on various sizes of material with *just the right amount* of pressure. Simply turn the micro-adjustment screw to fit the work.

WISE-GRIP®

Locking Pliers - Wire-Cutter

The VISE-GRIP® Long Nose Locking Pliers.

(6LN, with wire-cutter, pictured actual size.)

6LN

Length: Nominal 6".

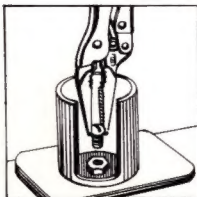

Jaw Thickness: 1/8" at tips. 5/16" at base.

7WR			18R	8R
10WR	215G	213H		9R

A matter of pride.

He arrived from Denmark in 1901. A blacksmith by trade.

He settled in DeWitt, Nebraska. Raised his family. And did all the things a blacksmith did in those days.

But Bill Petersen worked with more than his hands. In his mind was an idea. And the idea became the world-famous VISE-GRIP® hand tools.

To his idea, he brought skill and craftsmanship. And one more very important quality.

Pride.

Pride in his work. In his product. In his family. And in his employees.

A simple thing, pride.

But above all other things, it's what we still expect of ourselves today.

Full One Year Warranty

All VISE-GRIP® tools, having passed a rigid factory inspection, are warranted against defects in materials and workmanship for one year from date of original purchase. Any VISE-GRIP tool that is abused, or used for purposes other than those for which the tool was designed, is excluded from this warranty. This warranty does not extend to consequential damages except where required by law. If a VISE-GRIP tool appears defective, it may be returned to the factory. If a factory inspection determines that the tool is within this warranty, the tool will be repaired or replaced without charge. This warranty gives you specific legal rights which may vary from state to state. (Factory recommendation: an occasional drop of oil on all points of wear will insure better operation and prolong the life of the tool.)
